“Larry Harrison is doing some of the most creative, constructive and controversial thinking in America. Welcome to the new world of "culture" and how it shapes people's destinies.”

- Former Colorado Governor Richard D. Lamm.

Which cultural values, beliefs, and attitudes best promote democracy, social justice, and prosperity? How can we use the forces that shape cultural change, such as religion, child-rearing practices, education, and political leadership, to promote these values in the Third World--and for underachieving minorities in the First World? In this book, Lawrence E. Harrison offers intriguing answers to these questions, in a valuable follow-up to his acclaimed Culture Matters.
